Staggering Cost of Medication Noncompliance

Medication noncompliance results in an estimated 125,000 deaths annually, and is linked to as many as 40% of all nursing home admissions. People forget to take medications, are unsure of proper dosage and timing, and many lack the personal organization needed to manage this difficult task. Noncompliance adds upwards to \$290 billion of unnecessary costs to our already overburdened healthcare system each year.

The Leader in Medication and Supplement Adherence

A Proven Solution Inspired by a Son's Compassion

When Martin Cooper realized his parents' medication mismanagement was prompting many emergency room visits, hospital stays and doctor appointments, the inventor / entrepreneur sprang into action.

His solution, the MedCenter System, combines talking alarms with individual pill containers for each day of the month. When he realized his invention gave his parents a level of independence they had lacked for years, he and his brother David brought the concept to market. Today, MedCenter Systems are being used by tens of thousands of people all over the world.

MedCenter today

The success of the original MedCenter System has driven the company to develop an

ever-growing selection of complimentary products. When customers asked for larger pill boxes that could accommodate supplements, it spawned the MedCenter Vitamin Organizer. Conversely, the MedCenter Mini Monthly Organizer was designed for customers desiring a more compact design. The product line also includes a low profile unit that fits in a drawer, travel kits, talking alarm clocks, daily organizers with attached 5-alarm watches, reminder watches, iPhone apps and more!

Doctors & Pharmacists agree that taking medications on a set schedule is crucial for managing your health. With the MedCenter System, taking your medications on schedule becomes a part of your daily routine. HOW DOES IT WORK? Set up to 4 Daily Alarms to alert you when your medication is due. A repeating friendly reminder notifies you of the time, the date and which daily dose to take. ("Good morning! Please take your morning pills for the 20th.") Press the "Alarm Acknowledged Button" to confirm compliance and the MedCenter Talking Alarm Clock tells you when the next daily dose is due.

- TRI-DATE VERIFICATION: matching the visual dates on pill boxes and the clock's LCD display with audible alerts assures accuracy
- TALKING ALARM alerts users when it's time to take medication
- Set up to 4 DAILY ALARMS to alert you when your medication is due
- LOUD & EXTRA LOUD sound settings ensure the alarm is heard
- RED & GREEN COLOR CODING shows when daily dose is complete

Some customers may find that our Standard Pill Boxes are too small for their larger meds or the pill compartments are not large enough to hold their entire dose's allotment of meds.

Introducing our MedCenter Vitamin Organizer. Each of the included thirty-one, numerically marked, Pill Boxes measure 6" in length. That 's 2" longer than our standard Pill Boxes. The Vitamin Organizer also features a much smaller footprint than our original MedCenter System and MedCenter Organizer.

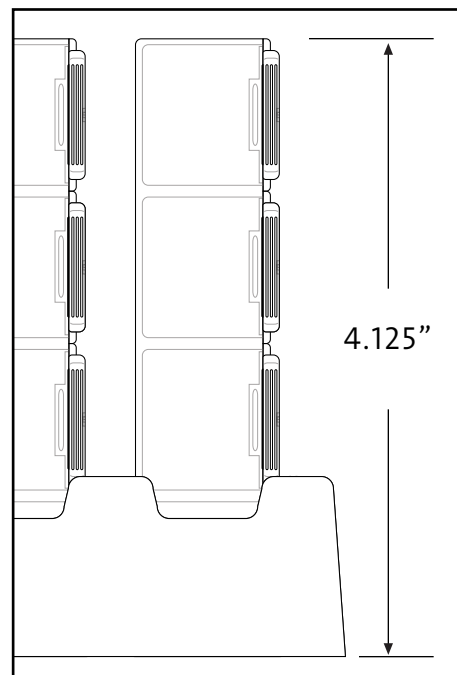

When used with our MedCenter Talking Alarm Clock (sold separately), the Vitamin Organizer becomes our largest organizer and reminder system.

DELUXE DUAL MedCENTER SYSTEM

(1) MEDCENTER SYSTEM, (1) MEDCENTER ORGANIZER
AND (1) WEEKLY TRAVEL BOX

MEDCENTERSYSTEMS.COM

The *DELUXE* Dual MedCenter System provides all of the benefits of the original MedCenter System with the advantage of a second MedCenter Organizer. Now you can have an Organizer in reserve, already filled with your daily medications, giving you the option of only filling the system six times each year! Are there two members of the household in need of an Organizer and Reminder system? The “*DELUXE* Dual MedCenter System” makes this an economical possibility.

Check with your local Pharmacy for Pre-Filled and Monthly Delivery Programs designed specifically for our *DELUXE* Dual MedCenter System. This allows the Pharmacist to pre-fill your empty Organizer and, in some cases, deliver it to your door once a month to exchange the full Organizer for your now empty one!

A Weekly Travel Box is also included in this special set.

CUSTOMER REVIEWS AND TESTIMONIALS

★★★★★ This is great

I am not one for remembering medication, but with the Medcenter system I haven't missed a day. I would recommend this to everyone.

★★★★★ MedCenter System Talking Monthly Pill Reminder & Organizer

By [Jacqueline](#) (Queens, New York)

This product is phenomenal. I purchased it for my grandmother because it is difficult for her to remember when to take all of her medication. After the initial set-up, and showing my reluctant grandmother how it worked, she too found it very simply and reliable. She loved that if she dozed off, the alarm would still ring at its specified time. AND that the machine continued talking to her until she took her pill. That little reminder made her much more relaxed. It was also a relief for me because I knew she was taking the correct pill dosage at the proper time. One can not put a price on piece of mind- especially with an elderly loved one!

Not only was the product delivered quickly and efficiently, but the customer service department (person with whom I communicated via email - Travis Besecker) was a pleasure. He assisted me in all my inquiries and responded promptly.

I can not be more pleased with this product or the person with whom I spoke. I highly recommend this machine, not only for its color coded boxes, talking and pill registration system, or the peace of mind I received, but most of all, for the personal service. It is wonderful to know that there are people in the business world who not only sell a solid product, but take time to respond and personally help the people who purchased it.

★★★★★ Outstanding product

By [Paul E. Borrer "EdwardB"](#) (Michigan)

We purchased this item for my wife who recently had transplant surgery. She has a number of meds which must be taken at precise time throughout the day. This product works perfectly to organize her meds, and announce loudly each time meds need to be taken. It's relatively compact sitting on the counter in the kitchen, holding up to a month of meds. We also like the visual red/green cues. The timer and alarms are easy to program, and the buttons on top very clear to their purpose. The only very minor drawback is that the pill compartments are relatively small -- smaller than the previous pill organizer she had. Her 9:00 AM meds just fit. But for us it's fine. Really a very well designed product.

★★★★★ Best Buy Ever

I cannot tell you what a godsend the MedcenterSystem Talking Monitor Pill Reminder and Organizer has been to me. I am presently involved in a five year study of Macular Degeneration at UCLA. I was finding it difficult to remember to take my pills on time and because this is in my opinion, a very important study, I wanted to do my very best in participating.

Since receiving the Medcenter System, I have not missed taking medications on time. Although it takes a little time to fill it each month, the ease of pill taking from then on makes the extra time well worth it.

I highly recommend this system to anyone who needs to take pills on time and more than once a day.

"The MedCenter is a great assistant in meeting our prescription regimen... When compared to the health and financial consequences of prescription non-compliance, the MedCenter provides an invaluable advantage."

"I bought one for my mother in law.. Fabulous! Now getting one for my mother!!" - *M. Cooke*

"It really is a wonderful product." - *C. Bloomberg*

"The clock did arrive today and I think it will help my father-in-law tremendously. He is suffering with Alzheimer's and we are trying our best to help him retain some degree of independence. Thank you again!" - *G. Tomlin*

"My parents LOVE the MedCenter system. It's a great product and true bargain given the convenience, compactness and peace-of-mind it offers."

- *G. Scammel*

"Outstanding, came fast, well packed, easy instructions to set up for Mom. She is now taking her meds, all of her meds; daily and on time. takes the guess work out of "did I?", or "didn't I?"

- *R. Kennedy*

"Excellent product! Just what we needed. Thanks!"

- *A. Kander*

"This is an excellent product. Easy to setup and use."
